Studied the age and gender composition of offenders, the dynamics of crime in various spheres of public life in the regions. Study of Internal Affairs of Uzbekistan Ministry of titles may decrease in crime in recent years, women in the Bukhara region downstream.**

**In particular, 2010 16.8 percent of the franchise is set to 9 years, b 2019 titles exceeds 1 of 1 percent of the organization to work together. For example, 2015-2017 9, compared with 2019 women in a significant reduction in crime '.**

**Keywords: Geodemography, geocriminogenic situation, criminogenic age, female crime, types of crime.**

## INTRODUCTION

Today, along with the rapid growth of the world's population, the need to reduce the crime process, especially some of its civilizations, indicates the need to study not only at the international level, but also at the regional level.

Therefore, criminals age and sex structure of the level of education and social

position of academic study and practical role an interpretation of that community. Statistical data tracks may, at 2010 8.3 crimes committed in the republic. 7 percent to men, 1.6 2 % female see the cookies settings come off. At the same curriculum occupies should be noted that the women in this crime were deaf, 11 % respectively l name. It is known that, of the women s crime fell ODir tracks can be heard. In fact, women are by nature more compassionate and gentle than men.

In addition, his family, household decentralized, parenting, garden more lasting less crime activities due to take part.

Study of Internal Affairs of Uzbekistan Ministry of titles may decrease in crime in recent years, women in the Bukhara region downstream.

In particular, 2010 16.8 percent of the franchise is set to 9 years, b 2019 titles exceeds 11 % percent of the organization to work together. For example, 2015 -2017, compared with 2019 women in a significant reduction in crime.

Women's crime training, showing the negative impact of the league entering the child's learning at home sib formation of negative incidents in the minds of the younger generation. It is therefore worrying that crimes committed by women are relatively social in

nature. Criminal bee every q want to franchising which gender specific crimes with 'h makes additional. Female criminals in the region focus on socio- legal h various lives have an impact on the bond changes . Women passes it to the crime Weight, hooliganism, extortion, fraud, etc. current outbreak o imported more than 'blackmail' tours. In particular, Neighing by women in cases of serious crimes are changing significantly. Serious and very serious crimes titles p h cases, the 25-35 year-old women, the right settings are applied. In particular, the Bukhara region of 2019 Women in the difficult and serious crimes of 9,8 % of the settings.

H See the current social economic processes of imposition of analysis that tracks an opportunity women are the main causes of crime q following a strong image g.

- a) Their activity in social production;
- b) B training in different communities Unit social control formation of the family and the loss of his teaching done the occurrence of specific features;
- c) Occurring in the community armies QB tensions training among emerging concern him, and you see a variety of administrative q deriving see continued resistance training q cases of ASD and hostility;
- d) Contrary to the way of life of the community s teaching the desired alcohol, drugs, for exile, and begging training c h i ;

Sh. Mirziyoyev. initiatives in the head on February 7, 2017, the Republic of Uzbekistan No. UP-4947 on the further development of the strategy approved by the Decree of the Republic of Uzbekistan for the period 2017-2021- on the five priorities for the development of strategies to combat crime and coordinate crime prevention activities , religious extremism, organized crime , terrorism and other forms of organizational and practical to strengthen the fight against korus chin to improve the legal and i

nstitutional mechanisms to combat and raiseth e legal culture and awareness of the to improve the efficiency of government agencies in this regard, civil society institutions , mass media and mutually beneficial cooperation with the organization with clearly defined tasks . In particular, in the first 10 months of his year the total number of crimes compared to the same period last year occupation of 14 percent , and robberies by 16 percent , 19 percent , 21 percent of murder , extortion , hooliganism - 22 % , 34 % reduction was achieved . In addition, women in cases of crimes committed between 16 percent and 14 percent among young people below the age of between 17 percent .

On the data analysis done in 2018, the Women of the crimes committed by 16 percent, 14 percent of economic crimes, fraud , and 11.4 percent of the crimes of theft . Women between the crime of the highest Ferghana, Samarkand and Tashkent regions and Tashkent city . Women of all crimes committed by 16 percent , 14 percent of economic crimes, fraud , and 11.4 percent of the crimes of theft .

Women and girls is completely serious types of crimes that do not happen to be not the elimination of the status of these types of crimes , Navoiy , Fergana region - every year . Engaged in illegal religious activities of the internal affairs bodies of the women in the current year on preventive 37.4 percent increase, the Republic of Karakalpakstan , Jizzakh region .

In addition the relationship between family life for the offense offense preventive account at the number of women and girls increased by 9.5 percent compared to 2017. This figure is unsatisfactory in Surkhandarya, Samarkand and Kashkadarya regions.

In this regard, women organized crime, with additional work for compromise ab production, recreation, family areas Charm prac

tical measures to solve the problems of activities conducted.

M criminal health level h am considerably far q s. This training done characteristic is that the Bukhara region s teaching on the secondary and to' li q secondary education franchise that you want to see the entire defendants name. Higher and incomplete higher education account for 18 per cent , complete secondary education for 81 per cent, and primary or non-primary education for 1 per cent. At the same academic settings caused by the offense and learning o orange natural cause of the recommendations of the franchise access to Viktor x Part of carrying out a simple case of victims far q need to be clarified. Because Victor circumstances, see an example of a different cause and the victims of the actions of the Altima movements are no training jokes or knowing the symptoms platform shall q inhuman h on the throne, as well as action q meetings, etc. can be.

If we analyze the age structure of offenders, one in five convicts is 18-24 years old, and the criminal genic activity of the population in the Republic is 18-35 years old. Crime has a huge negative impact on the development of society. Worse still, the role of the next generation is engaged in extremely YOS franchise LGA women n h am additional crime l have devastating consequences.

Bukhara region committed crimes k educational slide in Tashkent, Tashkent, Fergana, Samarkand, Andijan, to pray after the regions' training occupies. In the region q months confess geographical Parameters are the total committed crimes one-third of the city of Bukhara settings.

Alat, Karakul and Gijduvan districts have the highest rates. The main reasons for

the absence of crime in these areas are as follows:

- a) Diversity of the national composition of the population
- b) The intensity of the migration process
- c) Industrial branches of the orange placing r market of, and the level of urbanization
- d) Members of the public teaching of alcoholism and drug addiction among additional ranging from national traditions , customs and q values of the population convictions q Odin went weak educational impact of z k curriculum in Baku q .

In this direction:

Offering the criminals women tend to have a permanent identification and preventive them to work;

- Secondly, the organization of targeted preventive works with women who have committed crimes, returned from prisons and pardoned;

- Thirdly, together with the Ministry of Internal Affairs, the organization of spiritual and educational activities among prisoners in penitentiary institutions, the organization of explanatory work in the field of legal literacy and training in various professions;

- Fourth, in cooperation with the Ministries of Health, Public Education, Preschool Education, Higher and Secondary Special Education and the Republican Council of Neighborhoods to develop measures for joint work on the definition of departmental responsibility, analyzing the crimes committed by sectors;

## CONCLUSION:

Crime Prevention for the first society in the foundation of T b academic Djizak family, so the orange to create a healthy way of life. Her h q any criminal am a family to give me q name. Moreover, q bee teaching l q trainin g PRINT educational unspoken movements

o q caused his teaching some crime q become victims linked to the orange li q topics, television or public gaze and magazines of the population with the help of academic education to reverse the orange work h keeping a large role. Because of these facts the media via within the general public can access experience on h am well known. It turns out that works with families of people in public places, training productions, keep scandalous h penis come three cases of negative comments confirm the purpose is. Not only so, region, etc., but in all regions of the republic, based crimes to achieve a certain degree of decline. A total of boarding a negative impact on the development of titles provide the most probably one of the factors m reduction in its contribution to the franchise Lamia.
