Abstract: In this article given information and methods that about how to taught young children English language.

Keywords: Phrases, collocations, preposition, scavenger, ESL, skill-forming, observation, synonyms, antonyms, colorful things, card and picture.

No doubt, English language is one of the important language in the world. This language firmly uses any part of the earth. English language is one of the rich language that there are enormous words, phrases, collocations. Therefore learning English language demand long time. For this many people consider, that to learn this language at primary school it is better.

There are so many ways that can be used in an ESL classroom. One worthy point can be games. No doubt, children are very keen on games. With several funny games teacher may teach children, this language with easy way. For example, Mother May I-in this game teacher should take movement games a step further and may play Mother May I. Young students can use all sorts of adjectives to describe the types of steps they would like to take as they race to the other side of the playing area.² Simon Says

The classic Simon Says is great for practicing listening skills. You can use it to review body parts (Simon says touch your head) or prepositions .Simon says put your foot on your chair. The other game is Memory-this game also great for learning vocabulary. Try putting a vocabulary word on one card and a picture showing the word on another. Or put synonyms or antonyms on two different cards. Lay all the cards on the tables and have students try to remember where matches are. If there is one thing kids like more than having fun, it is moving. In fact, Dr. Maria Montessori suggested that young children are not able to learn unless they are also able to move.IN addition, involving the whole body in language learning is a useful teaching method. The more language learners move, the better and faster they understand what you are teaching and the more easily they can retain the information. It is

obvious, that kids like to make colorful and interesting things in the classroom. Using art to teach teacher young students the English language, is funny and easy way. The teacher can talk about obvious things like different colors and shapes when teacher use art. IN addition, young pupils have a opportunity that at same time they can learn language and may increase their painting ability. Language learning is significant a subskill and skill-forming process and essential step in the elementary stage.

If we do not ensure subskills of accurate observation, reproduction and imitation during first stage it is doubtful whether we shall ever secure them subsequently. Each technique, method, exercise should be used which may further the learners in their immediate purpose and bring them closer to their final goal. Everyday doing the same exercise in class is boring for young pupils. For this there are each teacher need play main role. The teacher should be creative, actor and communicative. If teachers love children and their job, no doubt they work by heart. It is fact that all pupil cannot understand the same exercises and with one method. In this situation teacher should be attentive and polite. Moreover, teacher should work with who is not understand the lesson. Try to explain in easy and interesting way. Even to change classroom with outside it is good idea. No doubt, children are surprised at what they can learn in the great outdoors. For instance, try to send young students on a scavenger hunt on school ground. You can tailor the items they are looking for whatever unit you are in the process of teaching. If you want, you might have them look for items that begin with each letter of the alphabet or items are each color of the rainbow. You can have them look for certain shapes too. To sum up there are a lot of methods and interesting ideas, ways are very useful for teaching English language to young children.
